Cash stuffing envelope refill plan

Keep envelopes aligned with actual spending between paydays.

Three steps

1. Write each spending limit
2. Record actual spending
3. Review remaining cash before refilling

A worked example

Envelope	Groceries
Limit	120
Spent	85
Remaining	35
Refill	Next pay

35 is still available in this envelope.

Do not count the same cash twice.

Cash stuffing envelope refill plan

Use one row per item or decision. Start with what you know.

Envelope	Limit	Spent	Remaining	Refill
