Compare car repair quotes fairly

See whether quotes include the same parts, labour and warranty.

Three steps

1. Ask for written scope
2. Compare like-for-like work and total price
3. Confirm exclusions before approving

A worked example

Shop	Workshop A
Work included	Brake pads and labour
Parts and labour total	180
Warranty	12 months
Questions	Tax included?

A lower quote is not necessarily cheaper if labour or tax is missing.

Use qualified mechanics for safety-critical repairs.

Compare car repair quotes fairly

Use one row per item or decision. Start with what you know.

Shop	Work included	Parts and labour total	Warranty	Questions
