Craft market stock and sales log

Track what sells at a market without counting cash as profit.

Three steps

1. Count opening stock
2. Record units sold
3. Reconcile sales and remaining stock

A worked example

Item	Notebook
Opening stock	20
Units sold	8
Price	6
Sales	48

Eight units at six produce 48 in gross sales.

Subtract expenses separately.

Craft market stock and sales log

Use one row per item or decision. Start with what you know.

Item	Opening stock	Units sold	Price	Sales
