Electricity tariff total cost comparison

Compare total tariff costs at the same estimated usage.

Three steps

1. Use equivalent usage
2. Include standing charges
3. Check taxes and contract terms

A worked example

Tariff	Plan A
Usage kWh	250
Unit rate	0.24
Fixed fee	15
Total	75

250 times 0.24 plus 15 equals 75 before other fees.

Tariffs and eligibility vary.

Electricity tariff total cost comparison

Use one row per item or decision. Start with what you know.

Tariff	Usage kWh	Unit rate	Fixed fee	Total
