Household contact and meeting plan

Make important contact information and a meeting point easy to find.

Three steps

1. Choose safe meeting points
2. Confirm contact details privately
3. Review local official emergency guidance

A worked example

Person or service	Household contact
Contact location	Printed private list
Meeting point	Agreed public point
Backup plan	Call agreed contact

A household has a known contact plan rather than improvised decisions.

Follow official emergency advice. Do not publish private contact information.

Household contact and meeting plan

Use one row per item or decision. Start with what you know.

Person or service	Contact location	Meeting point	Backup plan
