Unexpected expense recovery plan

Spread a surprise cost across future paydays without ignoring bills.

Three steps

1. Confirm the actual cost
2. Protect essential obligations
3. Schedule affordable allocations

A worked example

Expense	Repair
Total	360
Cash available	120
Remaining	240
Next payday allocation	80

Three allocations of 80 would cover 240.

Check payment terms and urgent needs.

Unexpected expense recovery plan

Use one row per item or decision. Start with what you know.

Expense	Total	Cash available	Remaining	Next payday allocation
